Professional Summary

Passionate Full Stack Developer based in Lahore, Pakistan. I craft exceptional digital experiences through code, combining creativity with technical expertise to build applications that make a difference. Specialized in modern web technologies including React, Node.js, and TypeScript, always staying up-to-date with the latest industry trends and best practices. My goal is to bridge the gap between design and technology, creating solutions that are both beautiful and functional.

Skills

Frontend: React, Next.js, TypeScript, Tailwind CSS, JavaScript, HTML/CSS
Backend: Node.js, Express.js, Python, PostgreSQL, MongoDB, REST APIs
Mobile: React Native, Flutter, Progressive Web Apps
Tools & DevOps: Git/GitHub, Docker, AWS, Vercel, Firebase
Other Technologies: Framer Motion, Stripe, Prisma, GraphQL

Projects

StudySync App (2024)

A comprehensive learning management system with real-time collaboration features, built for students and educators.
Tech: React, Node.js, Socket.io, MongoDB
GitHub (https://github.com/zamosigs/studysync) | Demo (https://studysync-demo.vercel.app)

Career Architects Website (2023)

Professional career counseling platform with appointment scheduling and personalized career guidance.
Tech: Next.js, TypeScript, Tailwind CSS, Supabase
GitHub (https://github.com/zamosigs/career-architects) | Demo (https://careerarchitects.com.pk)

Gym Khana Club Jhang Website (2023)

Modern club management system with member portal, event management, and online booking capabilities.
Tech: React, Express.js, PostgreSQL, AWS
GitHub (https://github.com/zamosigs/gym-khana-club) | Demo (https://gymkhanajhang.com)

E-Commerce Platform (2024)

Full-stack e-commerce solution with payment integration, inventory management, and admin dashboard.
Tech: Next.js, Stripe, PostgreSQL, Prisma
GitHub (https://github.com/zamosigs/ecommerce) | Demo (https://ecommerce-demo.vercel.app)

Task Management App (2023)

Collaborative task management application with real-time updates, team features, and progress tracking.
Tech: React, Firebase, Material-UI, Redux
GitHub (https://github.com/zamosigs/task-manager) | Demo (https://task-manager-demo.vercel.app)

Weather Dashboard (2023)

Interactive weather application with location-based forecasts, maps integration, and historical data.
Tech: Vue.js, OpenWeather API, Chart.js, Vite
GitHub (https://github.com/zamosigs/weather-app) | Demo (https://weather-dashboard.vercel.app)

Milestones

- **2020:** Started Programming Journey – Began learning web development with HTML, CSS, and JavaScript
- **2021:** First Full Stack Project – Built my first complete web application using React and Node.js
- **2022:** Professional Experience – Started working as a freelance developer, helping businesses online
- **2023:** Advanced Specialization – Deepened expertise in modern frameworks and cloud technologies

Stats

- 50+ Projects Completed
- 3+ Years Experience
- 20+ Happy Clients
